WASTEWATER TREATMENT OPERATIONS, STACKABLE CERTIFICATES OF SPECIALIZATION

Water & Wastewater Fundamentals Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- · Wastewater Treatment Operator-1
 - Identify in detail characteristics and sources of ground water and surface water supplies including the chemical, physical and bacterial characteristics, and explain the effects on quality of geological formations, stratifications, and watershed management.
- · Wastewater Treatment Operator-7
 - Perform basic mathematical calculations and conversions relating to water flow, pressure, volume, velocity, chemical dosage, and hydraulic and organic loading.
- · Wastewater Treatment Operator-8
 - Recognize and comment on safety procedures applicable to service and operation of wastewater collection and treatment systems, including potential problems.

Certificate Requirements

CWS-102	Safety in Water & Wastewater	3
CWS-101 CWS-102	Fundamentals of Water & Wastewater Calculations in Water & Wastewater	3
CWS-100	Career Pathways in Water & Wastewater	3
Code	Title	Units

Wastewater Treatment Operations

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Wastewater Treatment Operator-2
 - · Identify the characteristics and sources of municipal sewage.
- · Wastewater Treatment Operator-4
 - Describe the basic principles of conventional wastewater treatment.
- · Wastewater Treatment Operator-8
 - Recognize and comment on safety procedures applicable to service and operation of wastewater collection and treatment systems, including potential problems.

Certificate Requirements

Code CWS-106 CWS-110	Title Electrical & Instrumentation Processes Laboratory Analysis for Water & Wastewater	Units 3			
			CWS-114	Wastewater Treatment Plant Operations	3
			Total Units		

Advanced Wastewater Treatment Operations

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- · Wastewater Treatment Operator-7
 - Perform basic mathematical calculations and conversions relating to water flow, pressure, volume, velocity, chemical dosage, and hydraulic and organic loading.
- · Wastewater Treatment Operator-3
 - Describe the specifications, installation, and operation of typical devices used in backflow prevention and testing and explain their proper installation.
- · Wastewater Treatment Operator-6
 - Explain the basic principles of preliminary, primary, secondary and tertiary treatment.
- · Wastewater Treatment Operator-5
 - Compare and contrast wastewater treatment unit processes including preliminary, primary, secondary and tertiary treatment.

Certificate Requirements

Code	Title	Units
CWS-134	Pumps, Motors & Valves	3
CWS-204	Applied Hydraulics	3
CWS-214	Advanced Wastewater Treatment Plant Operations	3
Total Units		9

Certificates of Specialization

Students who complete the requirements above qualify for a certificate in that area of emphasis. An official request must be filed with the Admissions and Records Office prior to the deadline as stated in the Academic Calendar.
