

# DRONE CINEMATOGRAPHY CERTIFICATE OF PROFICIENCY

The Drone Cinematography Program Certificate of Proficiency provides 180 hours of instruction and hands-on flight training. This program covers hands-on flight training and test preparation for the FAA 107 drone pilots examination. The two non-credit courses in the program includes both basic and advanced cinematography techniques with an emphasis on developing "lifestyle" shots and a creative mindset. The theory and operations of both standard and advanced/precision camera shots is combined with operational scenarios in order to provide students with the ability to match specific and advanced flight profiles for the shots needed.

**The Program-level Student Learning Outcomes (PSLOs)** below are outcomes that students will achieve after completing specific certificate requirements in this program. Students will:

1. Know how to set-up and use the drone camera
2. Learn flight maneuvers and techniques used in drone cinematography
3. Be able to apply to several drone sourcing companies and get immediate work as a Drone Real Estate Photographer
4. Know how to apply for drone jobs and set-up an online portfolio to promote drone work

## Certificate of Proficiency Requirements:

**Note: All non-credit courses must be completed with a "pass" credit.**

| Code     | Title                | Units |
|----------|----------------------|-------|
| CSIS-070 | Drone Flight School  | 0     |
| CSIS-071 | Drone Cinematography | 0     |

## Addendum Comment:

Revised program, changes to include: removing CSIS 072 and adding CSIS 071.

Effective: Fall 2023 as of 10/2/2023.
